Dear Ms. McCord:

**REMOVAL ACTION WORK PLANS - PLANT 9 AND PLANT 2/3**

Reference: Letter, C. A. McCord to R. J. Hansen, "Removal Action Number 1, U. S. DOE Fernald OH6 890 008 976", dated April 2, 1990

Removal Action Number 1, as stated in the Consent Agreement under CERCLA 120 and 106(a) between U.S. DOE and U.S. EPA, involves pumping of contaminated groundwater from under plant buildings at the Feed Materials Production Center (FMPC). This removal action initially included the time-critical removal of contaminated water underneath Plant 6. U.S. DOE, as the Lead Agency, and the U.S. EPA, as stated in the referenced letter, have determined that Removal Action Number 1 shall be expanded to include contaminated water found under or near Plant 9 and Plant 2/3.

Enclosed are the work plans for implementing time-critical removal actions at Plant 9 and Plant 2/3. The work plans meet the requirements outlined in Section IX.(B) of the Consent Agreement under CERCLA Section 120 and 106(a). Please review the work plans and forward your approval and/or comments to my office to allow work to proceed in a timely manner.

If you have any questions, please contact Jack Craig, of my staff, at FTS 774-6159.

Sincerely,

  
Gerald W. Westerbeck  
FMPC Site Manager
